

Notes:

1. This play structure design will meet ADA accessibility guidelines for buildings and facilities, effective December 12, 2008 as published by the Architectural and Transportation Barriers Compliance Board with the addition of NA ground level play components of NA. All other types of play not when installed over accessible surfaces.

2. This site plan should be checked against the actual site area prior to the purchase or installation of equipment.

3. The unit of measure listed in the center of the pattern indicates the height above the protective surface, level. The protective surface for this design must accommodate a fall height of at least 4 ft unless otherwise noted.

4. The structure size for this set is 38' x 10', requiring protective surfacing for an overall use zone of 50' x 22'. The approximate surface area is 882 sq. ft. by ASTM F 1487-10 guidelines.

5. This structure is designed to accommodate 32 children from 2 years of age.

6. Supervise children as they play.

7. To insure that accurate measurements are obtained from this site plan, print copies on 11 x 17 paper at full scale.

8. The customer responsibility is to check local soil conditions and drainage within the site. The site must also be surveyed for underground utilities prior to excavation.

9. Completely read your installation manual prior to beginning construction.

10. This design configuration is the property of the firm and Playland Inc. and may not be reproduced or used in any manner without the expressed written consent of that firm and Playland Inc.

11. Perimeter requires 32 Land Slope Timbers if long.
