

# PLAYLAND

- Notes:**
1. This play structure design will meet AIA Assembly Guidelines for Buildings and Facilities, edition November 22, 2000 as published by the Architectural and Transportation Barriers Compliance Board with the addition of NA ground level play components of NA different types of play and also included over accessible walking.
  2. This site plan should be checked against the actual site area prior to the purchase or installation of equipment.
  3. The wall of equipment located in the center of the platform includes the height above the production walking level. The platform walking for this design must accommodate a fall height of at least 5 ft.
  4. The structure size for this wall is 15' X 20' meeting platform walking for an overall size near of 27' X 32'. The approximate surface area is 700 sq. ft. as required by ASHRAE 90.1-2001 guidelines.
  5. The structure is designed to accommodate 18 children from 5 to 12 years of age.
  6. Superior Children is the play.
  7. It is noted that accessible components are detailed from this site plan, paid copies are 8 x 17 paper at full scale.
  8. The customer responsibility is to check local soil conditions and drainage within the site. The site must also be surveyed for underground utilities prior to construction.
  9. Completely seal your installation manual prior to beginning construction.
  10. This design configuration is the property of this firm and Playland Inc. and may not be reproduced or used in any manner without the expressed written consent of this firm and Playland.
  11. Fabricator Supplier 20 Last Steps: Thickness of legs

Scale: None
