

**Notes:**

1. This play structure design will meet all (availability) California for Building and Facilities, effective November 17, 2000 as published by the Architectural and Transportation Barriers Compliance Board with the addition of N/A ground level play components of N/A different types of play and view included over accessible parking.
2. This site plan should be checked against the actual site prior to the purchase or installation of equipment.
3. The max. of pressure treated in the center of the platform includes the height above the protection surfacing level. The protection surfacing for this design must accommodate a fall height of at least 6 ft.
4. The structure size for this unit is 16' X 19', requiring protection surfacing for an overall size area of 28' X 31'. The approximate number users is 7/18 up to 12 years of age by ASTM F 1002-01 guidelines.
5. The structure is designed to accommodate 17 children from 5 to 12 years of age.
6. Supervise Children on this play.
7. To ensure that accurate measurements are obtained from this site plan, print copies on 11 x 17 paper at full scale.
8. The customer responsibility is to check local soil conditions and drainage within the site. The site must also be surveyed and approved within the context of this site and Playland.
9. Completely read your installation manual prior to beginning construction.
10. This design configuration is the property of this firm and Playland Inc. and may not be reproduced or used in any manner without the expressed written consent of this firm and Playland.
11. Particular Approval 30 and Scope Section 4 Long

Structure #: PS3-90400
