

PLAYLAND

26'-3"
8.0M

Structure does not meet ADA Guidelines

- This play structure design will meet all Accessibility Guidelines for Buildings and Facilities effective December 17, 2003 as published by the Architectural and Transportation Barriers Compliance Board with the addition of NIA ground level play components of NIA without type of play not otherwise indicated on available marking.
- This site plan should be checked against the actual site area prior to the purchase or installation of equipment.
- The rest of markers located in the center of the platform indicate the height above the platform marking level. The platform marking for this design must accommodate a full height of at least 6" to 8".
- The structure size for this unit is 15' X 26" requiring platform marking for an overall size area of 27' X 37". The approximate surface area is 754 sq ft, as required by ADA 7.109-41 platform.
- The structure is designed to accommodate 23 children from 5 to 12 years of age.
- Separate Children as they play.
- To ensure that accurate measurements are obtained from this site plan, print copies on 11 x 17 paper at full scale.
- The customer responsibility is to check local soil conditions and drainage within the site. The site must also be surveyed for underground utilities prior to construction.
- Completely not your installation manual prior to beginning construction.
- This design configuration is the property of this firm and is not to be copied or used in any manner without the expressed written consent of this firm and Playland.
- Particular Number 33 and Deep Water of Long.
