

**Notes:**

- The play structure design will meet ADA Accessibility Guidelines for Buildings and Facilities, effective December 17, 2006 as published by the Architectural and Transportation Barriers Compliance Board with the addition of 0 ground level play components of 0 different types of play and also installed over accessible surfacing.
- This site plan should be checked against the actual site area prior to the purchase or installation of equipment.
- The end of measure located in the center of the platform indicates the height above the protective surfacing level. The protective surfacing for this design must accommodate a 60" height of at least 4' 0".
- The structure size for this unit is 12' X 20', requiring protective surfacing for an overall size of 24' X 32'. The approximate surface area is 658 sq. ft., as required by ASTM F 1951-04 guidelines.
- The structure is designed to accommodate 20 children from 2 to 5 years of age.
- Separate Children as they play.
- We assure that accurate measurements are obtained from the site plan, print copies on 8 x 11 paper at full scale.
- The customer's responsibility is to check local soil conditions and drainage within the site. The site must also be surveyed and underground utilities prior to construction.
- Completely read your installation manual prior to beginning construction.
- This design configuration is the property of this firm and Playland Inc. and may not be reproduced or used in any manner without the expressed written consent of this firm and Playland Inc.
- Permittee Requires: 20' Level Square Platform 4' Long.
